Marylanders for Offshore Wind

WHO WE ARE:

The Chesapeake Climate Action Network (CCAN) is the first grassroots, nonprofit organization dedicated exclusively to fighting climate change in Maryland, Virginia, and Washington, D.C. We're building a powerful movement to shift our region away from climate-harming fossil fuels to clean energy.

WHAT WE ACHIEVE:

Since CCAN's founding more than 10 years ago, we've passed groundbreaking laws to promote offshore wind energy, clean cars, clean electricity and greenhouse gas reductions, shut down dirty coal plants in Maryland and Virginia, and put the brakes on dangerous offshore drilling and fracking. All of these victories have been powered by people like you!

GET INVOLVED: SIGN UP TO TAKE ACTION
chesapeakeclimate.org/signup

The single most important thing you can do to fight climate change is to get involved where you live, and that's where CCAN comes in. We have lots of opportunities, big and small, for you to make an impact—whether it's joining a rally or meeting in your community, taking action online, organizing on your campus, writing a letter to the editor, or educating your neighbors and your elected officials.

DONATE TO CCAN:
