

ENGLISH IVY IS KILLING TREES ON YOUR PROPERTY!

Please survey your yard. English Ivy or similar invasive vines
are stealing money from you!

Did you know?

- English Ivy and other vines can kill a tree quickly, sometimes in months.
- The weight of ivy can make trees more prone to falling during storms.
- Once a tree dies, it can cost you several thousands of dollars to remove it.
- A healthy, mature tree can add up to \$10,000 in value to your home.
- Trees help cool your home in summer, saving money on air conditioning.
- A mature tree can “sequester” up to a ton of carbon from the atmosphere, thus thus fighting global warming.
- Ivy and other noxious tree vines can be removed with common household tools in just minutes. Visit <https://treestewards.org/take-ivy-off-trees/>
